

1. K-LOVE Radio and its sister station AIR1 are the only radio stations that our family listens to.
2. If these stations are taken off the air, it would be devastating not only to our family but to the many more families who live in our growing city of over 4 million.
3. KLOVE/AIR1 offer us good quality music without any vulgar or inappropriate lyrics. We are slammed with far too much of this from other TV & radio stations. We need to have somewhere to turn to so that we don't have to worry about being subjected to that garbage.
